INSTRUCTIONS:

Make a paper chain with quotes from the December 2010 Visiting Teaching Message, and an abbreviated pedigree chart (to be filled out by the sister you visit teach). Cut out each strip. Alternate the links so the VT message faces you on one side of the chain, and the pedigree faces you on the other. Discuss ways in which temple and family history work has comforted you in challenges or guided you in important decisions. Discuss how temple ordinances keep our ancestral "chain" from being broken.
