

September 2011 Visiting Teaching Message Aid Instructions:

Cut out radio and word wheel just inside dotted lines. With a craft knife, remove the black section on the radio tuning dial. Punch a hole in the center of the radio dial and the word wheel. Slide a pony bead onto a brass brad. This will make your tuning dial look more realistic - but the bead is just for show. It is not attached to the dial at all, so when you spin the word wheel, you must grip the end of the brad to make it work! Place word wheel behind radio dial and insert brad through both items. Bend ends of brad tight against the bottom of the word wheel, and secure with a piece of tape. Adhere back corners of radio to another piece of cardstock, or to a box of theatre-size candy (Junior Mints are the perfect size). Demonstrate how to be in tune with the Spirit, by "tuning" the radio dial: spin the word wheel with the brad, and read the ways in which we can qualify for the Lord's Spirit.

Tuning in the Spirit of the Lord: "The ability to qualify for, receive, and act on personal revelation is the single most important skill that can be acquired in this life."
